RISK AND REWARD PROFILE

Meaning of the risk and reward indicator

The risk indicator aims to provide you a measure of the price movement of the shares. This category 3 means that the share price has a moderate price movement therefore the risk of loss as well as the expected reward can be moderate. The lowest category does not mean a "risk free" investment.

Historical data may not be a reliable indication for the future. The risk indicator shown is not guaranteed and may change over time. There is no capital guarantee or protection on the value of the Sub-Fund.

Reason why the Sub-Fund is classified in this risk category

Fund volatility corresponds with the investment strategy.

The following risks may not be fully captured by the risk indicator and may be materially relevant for this Sub-Fund:

Counterparty risk: the risk arising from the inability of any party contracting with the Fund to satisfy its obligations, in particular in respect of off-exchange financial transactions where the market does not guarantee the performance of contracts in case of defaulting counterparties.

Credit risk: the risk arising from the inability of an issuer of Debt Securities to pay interests or repay the sum borrowed under the Debt Securities.

Currency risk: the risk of loss arising from a change in the price of one currency against another, which may adversely affect the share value in case of discrepancy between the currency of the investments and of the Sub-Fund or share class.

Liquidity risk: the risk arising when an insufficiency of buyers on the market affects the ability to sell investments.

Further investment risks are set out in the risk section of the prospectus.
