In principal you may transfer the Compartment’s shares only to a well-informed investor.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This risk and reward indicator illustrates where the Compartment is positioned in terms of its possible risk and reward. The higher the Compartment’s position on this scale, the greater the possible reward, but also the greater risk of losing money. This risk indicator is calculated using historical data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time. Even if the Compartment is in the lowest risk class you can lose money, as no investments are entirely risk free. This Compartment is in category 3 since the price changes of the benchmark used for this calculation have been moderate in the past. The following risks are not fully reflected in the above classification but still influence the Compartment's value. Further information about risk can be found in the investment memorandum which is available at the registered office of the AIFM upon request.

Hedge funds risk. Hedge funds are private pools of investment capital with broad flexibility to buy or sell a wide range of assets. The investment strategies pursued by hedge funds are extremely diverse and can present a higher risk than traditional investments.

Charges

Entry charge	→ up to 3%
